Dear Colleague:

Michigan Public Library Statistics 1988 *is a compilation of information filed with the Library of Michigan by 1 February 1988. The data covers the latest 12 month operating year of the libraries.*

Five separate reports are grouped according to the size of the population served. The areas of income, operating expenditures, collection, collection/circulation/personnel, and audiovisual resources are targeted. Two summary tables are also included. The first summary table shows TOTAL statistical information on each public library group. The second table provides AVERAGE statistical information on a "typical public library" for each public library group.

Statistical information is also given for public library cooperatives, regional and subregional libraries serving the blind and physically handicapped in Michigan.

I am pleased to present this report to you and hope you will find it a valuable resource.

Sincerely,

James W. Fry
State Librarian
